Sri Prakash Vidya Niketan   **2017 – 2018**
10th - Science - ***Percentage** - **86.6%***   *AP, India*

PROJECTS

Blog Platform ⌇ | HTML, Tailwind(CSS), React,   **2025**

* A JavaScript library for building user interfaces, providing the foundation for the application's frontend.
* Users can create new blog posts by providing a title, description, and an image URL.
* Users can edit existing blog posts by clicking the "Edit" button on a post card.
* React's 'useState' hook is used to manage the state of blog posts within the application.)

Weather App ⌇ | HTML, CSS,Javascript, IDE - VS Code   **2023**

* Developed a responsive weather application using JavaScript to fetch and display real-time weather data via the OpenWeather API.
* Designed an intuitive and interactive UI with HTML and CSS, ensuring a seamless user experience across devices.
* Implemented features like location-based weather updates, temperature conversions, and condition-specific icons to enhance usability.

Text to Word ⌇ | HTML, CSS, JavaScript   **2023**

* Designed and implemented a responsive text-to-speech application, leveraging JavaScript's Web Speech API to convert text into clear, real-time audio output.
* Integrated features for adjusting voice type, pitch, and speed, ensuring a personalized and engaging user experience.
* Developed an accessible and responsive UI using HTML and CSS, optimized for seamless functionality across multiple devices and screen sizes.
